

IDEA NEWSLETTER #3

IDEA Project funded by the Erasmus+ Programme of the European Union launched in November 2017, targeting the issue of Energy Poverty. Partners: UCY - Cyprus (Coordinator), DOOR - Croatia, EAP - Bulgaria, FOCUS - Slovenia

THIRD TRANSNATIONAL MEETING

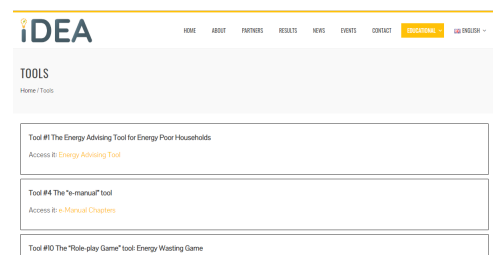

The third transnational project meeting of IDEA project was conducted in Ljubljana, Slovenia on 10-11 April 2019, hosted by Focus, with participation from UCY, DOOR and EAP. Representatives from all the partner organizations gathered together in order to discuss the project progress, present their new results, resolve open issues and questions and draft an action plan for the upcoming tasks regarding the project, with main focus on the digital tools and the multiplier activities.

During the first day of the meeting, the IDEA consortium representatives conducted a joint meeting with the consortium of project "InventAir", in order to present to each other the two projects.

PROJECT PROGRESS

The consortium is currently working on both Intellectual Output 3 (IO3) and Intellectual Output 4 (IO4). The output objective of IO3 is to produce 15 innovative digital tools to assist in educating people about energy poverty, energy consumption, and ways to decrease it, and to assist energy advisors in their households visits. The tools are based on the educational program outlined in IO2 which was responding to the training needs identified in O1. UCY is the leading partner of IO3. In IO4, where DOOR is taking the lead, the partners will develop videos and posters, as well as organise multiplier events and webinars, aiming to disseminate the project and inform the public about the results as they can benefit from them. The results of IO1 and IO2 are published in the project's website and can be accessed and downloaded in the following link:

MULTIPLIER EVENTS

The consortium is planning to host four different multiplier events - one in each partner country, to disseminate the project. During the events the results will be presented, and additionally many interesting talks, presentations and discussions will take place. Relevant organisations, stakeholders as well as interested individuals, are invited to participated. The events will be hosted in September, and the final dates will be announced soon on the [events website](#). Please stay tuned!
